Hot Now

- **XLE** — Strong 1-month gains and positive 5-day momentum
- **XLV** — Positive 1-month and 5-day performance with defensive appeal
- **XLK** — Positive across all timeframes, showing resilience

Cold but Worth Watching

- **XLY** — Sharp 1-month decline but potential for rebound if consumer spending stabilizes
- **XLI** — Negative 1-month but positive 1-day, possible oversold bounce
- **XLRE** — Weak 1-month but utilities and real estate may benefit from rate cut expectations

Energy leads with strong momentum, while consumer discretionary and industrials lag, suggesting a rotation toward defensive and commodity-linked sectors.

Daily Conclusion

Risk-off sentiment dominates as inflation and Middle East supply concerns drive oil higher, pressuring equities despite broad sector rotation into defensive energy, healthcare, and tech.
