Major Anomalies

SLV — Silver ETF -4.17%

Cause: Silver prices fell amid a broad commodity sell-off driven by escalating US-Iran tensions and a stronger US dollar.

Forward Impact: Continued geopolitical uncertainty may pressure silver further, but safe-haven demand could provide support if tensions escalate.

ETH-USD — Ethereum -3.10%

Cause: Ethereum fell in tandem with Bitcoin and broader crypto market, exacerbated by technical selling and lower risk appetite.

Forward Impact: Ethereum's outlook hinges on overall crypto market sentiment and potential network upgrades; near-term volatility likely.

USO — Oil ETF -2.85%

Cause: Oil prices dropped on reports of potential US-Iran de-escalation and profit-taking after recent gains from supply disruption fears.

Forward Impact: Oil volatility will persist with geopolitical headlines; any actual supply disruption could reverse losses sharply.

BTC-USD — Bitcoin -2.29%

Cause: Bitcoin declined as risk assets sold off amid Iran war worries and a stronger dollar, with crypto also facing regulatory headwinds.

Forward Impact: Bitcoin may remain correlated with risk sentiment; safe-haven narrative could re-emerge if geopolitical crisis deepens.

Hot Now

- **Healthcare** — Strong positive returns across 1d, 5d, and 1m timeframes
- **Real Estate** — Consistent outperformance with positive momentum
- **Consumer Staples** — Defensive strength amid market weakness

Cold but Worth Watching

- **Technology** — Sharp 5d decline may be overdone, potential bounce
- **Communication Services** — Extended weakness could reverse on mean-reversion
- **Consumer Discretionary** — Sector oversold relative to others, watch for catalyst

Defensive sectors like healthcare and real estate lead as growth/tech sell off, but oversold conditions in technology and communication services may offer mean-reversion opportunities.

Daily Conclusion

Rising inflation and geopolitical conflict are driving a flight to safety, with investors rotating out of growth and tech sectors into defensive assets like healthcare, real estate, and commodities.
