Hot Now

- **Technology** — Strong positive momentum across 1d, 5d, and 1m timeframes
- **Industrials** — Consistent gains with accelerating 1m performance
- **Financials** — Solid 1d and 1m returns despite moderate 5d

Cold but Worth Watching

- **Energy** — Sharp 5d and 1m declines, but 1d bounce suggests potential reversal
- **Communication Services** — Persistent weakness across all timeframes, oversold conditions
- **Consumer Staples** — Negative momentum but defensive sector may stabilize

Cyclical sectors like Technology and Industrials lead with strong momentum, while Energy and Communication Services are deeply oversold and may see mean-reversion.

Daily Conclusion

Despite a lack of macro surprises or sector anomalies, the market is rotating into Technology, Industrials, and Financials while shunning Energy and defensive sectors, reflecting a risk-on sentiment driven by geopolitical stability and optimism for economic growth.
